

HyDraw® CAD 2020 Hotfix 15 EN

Applicability: HyDraw CAD 2020 with SP2 and Service Packs installed

Issues Resolved:

1. HyDraw is crashing on switching to the home screen once Export to MDTools is run.
2. Export to MDTools is displaying incorrect net information.
3. Export to MDTools has incorrect net list and changes symbol's port names when running again.
4. Other port name not displaying while using Export to MDTools.
